

Michael Wang

Backend Engineer · C# / .NET

Taipei, Taiwan | +886 936607911 | ballway.w@gmail.com | linkedin.com/in/ballway | ballway.github.io

Backend engineer with 3+ years of experience designing APIs, maintaining production systems, and integrating payment services. Proficient in C# / .NET ecosystem with hands-on work in multi-tenant SaaS architecture, framework modernization, and cross-team API collaboration. Business Administration background enables effective communication with cross-functional teams including product managers, system analysts, and engineering leads.

CORE SKILLS

Backend (C#)

ASP.NET Core, ASP.NET MVC, Entity Framework Core, Autofac, Spring.NET, Quartz.NET, NUnit

API & Integration

RESTful API design, API documentation, ECPay payment gateway, Aspose

Frontend & Data

Vue 2/3, JavaScript, jQuery, HTML/CSS; MSSQL, MySQL, MariaDB, SQLite

DevOps & Tools

Git, SVN, Jenkins, IIS, Nginx, Azure App Service, GCP VM (Ubuntu)

EXPERIENCE

Software Engineer · Autron Technology

Feb 2025 – Present

- **Technical architecture:** Designed technical solutions for new product development, collaborating with Product Manager to align business requirements with implementation and providing technical guidance across engineering teams.
- **Payment integration:** Implemented **ECPay** payment gateway integration for online transaction processing across production systems.
- **Production operations:** Maintained 15+ production projects (**.NET Core 3.1 + Vue 2 + MariaDB**) on **GCP VMs (Ubuntu + Nginx)**; migrated a legacy **.NET Core 2.2** site from Windows Server + IIS to **Azure App Service**.

Software Engineer · ShinHer Information

Jan 2024 – Jan 2025

- **API ownership:** Owned the **API** surface of a multi-tenant SaaS product — designed and developed new API features, led cross-team integration discussions, and rewrote legacy **API documentation** to ensure consistency for third-party integration partners.
- **Multi-tenant SaaS development:** Shipped 20+ product features in **ASP.NET Core MVC (.NET 7/8)** and **ASP.NET MVC (.NET Framework 4.7.1)**; built a new SaaS product with tenant-based feature toggling deployed on IIS.
- **Security & quality:** Analyzed system security weaknesses and co-planned remediation with Tech Lead; recognized by supervisors as the most thoughtful and error-free developer on the team.
- **Frontend:** Built customer-facing pages with **Vue 3**, **Telerik Kendo UI**, and **Bootstrap**.

Software Engineer · Galaxy Software Services

Jun 2022 – Jan 2024

- **Framework modernization PoC:** Designed and delivered a successful proof-of-concept to upgrade a large codebase from **.NET Framework 4.7.2** to **.NET 6 / .NET 8**, including **IoC/DI** migration from **Spring.NET** to **Autofac** and multi-tenant compatibility analysis.
- **System features:** Built an on-demand watermarked-PDF download pipeline (Word/Excel/PowerPoint/image conversion via **Aspose**); implemented **Quartz.NET** background job scheduling; redesigned the built-in account system with Excel import/export — improving data creation efficiency by **60%**.
- **Mentorship:** Onboarded new team members on system architecture, layered design, and debugging; co-authored team development standards that saved 2–3 minutes per recurring question.

EDUCATION

National Chung Cheng University

B.B.A. in Business Administration 2017 – 2022

CERTIFICATIONS & LANGUAGES

TOEIC 900 (Golden) · JLPT N2

Languages: Mandarin, English, Japanese

AWARDS

ATCC Case Competition · 3rd Place × 2 — Taiwan's largest business case competition

- **18th ATCC, 2020 — Team Mentor**, guided team to 3rd place out of 300 teams
- **17th ATCC, 2019 — Team Captain**, led team to 3rd place out of 255 teams
